

# SYMPOSIUM @ ESC 2018

"Aortic Stenosis  
treatments? I know it all!  
– You will be surprised...."

## Learning Objectives:

1. Understand the challenges in diagnosis and management of aortic stenosis.
2. Discuss the heart team approach to the different treatment strategies.
3. Learn how TAVI procedures are performed today and which outcomes to expect for your patients.
4. Discover the future of TAVI focused on technology development and the expansion of indications.

## Date:

Monday 27 August 2018

## Time:

13.00-14.00

## Location:

Hub 3 Haendel
